Jim Stangel mentioned that the waiver for requirements was submitted for the PERC tests due to the fact the subdivision would be eligible for the DEP Sewer District. The Devores had contacted the DEP regarding this fact and received a letter stating that they saw no reason why the parcels could not be in the district. There were some dots on the survey indicating possible locations for the sewer lines. It was agreed that the future owners would determine where the house would be located on the property which would also determine where the sewer line locations would be so Anthony said he would make a note on the map that the dots are for reference only. There was no objection from the County with the GML 239 request and no objection with NYS DOT for the future driveway location on Rte 42.

The SEQR was read.
