Ken, and Michelle, please provide this information to Phil Coombe III, Chairperson of the Neversink Planning Board and to Mike Dean, Chairperson of the Neversink ZBA and to the members of both boards.

We all likely saw new poles and wires being installed along Route 55 in Grahamsville this Summer. What was not known was that once that new power line was energized, the prior route of this circuit would be decommissioned and removed. The photos above were taken over the hole in the ground where the pole once stood that was the proposed point of interconnection (“POI”) of the Hastings Solar Project. All poles and lines have been removed.

Until a different POI is identified and confirmed viable by Central Hudson, the solar project is on hold.

Please hold on further review of the ZBA and Planning Board applications. If a new POI cannot be identified we will advise and withdraw the pending applications.
